

**“It’s like having a conference room on your desktop!”**

**Always arrive to your meetings on time and stay in complete control of all your communications!**

Introducing your new video conference room. Avaya Vantage™ has everything you need to get the conference room experience from your home office desktop.

It works with your Avaya conferencing software—get access to the same communications capabilities you have in the office. It gives you one-touch or voice entry into your next meeting. Calendar integration will ensure you are always where you need to be.

The built-in high definition camera means that you will enter the meeting looking your best. And the Wide-band audio and unique microphone array means that you will hear and be heard—just as if you were sitting in a conference room! And you can also easily connect and use a larger display to get a better view.

It has a small form factor. Set it up anywhere using Wi-Fi. Use the speakerphone, or your choice of Bluetooth headset or earbuds. You can also add a handset if you’d like.

And set-up is a breeze—just enter a code to get started.

With Avaya Vantage™ all of your communications and meetings are a touch or word away!
