

Avaya Better Together Bundle

Give your employees Avaya professional quality video and audio devices to maximize their productivity when working away from the office.

With plug and play simplicity, the ability to use your choice of meeting service, High Definition (HD) video and OmniSound® technology – your employees will always look and sound their best during meetings.

Perfect for office huddle rooms or the “anywhere” office, a single USB cable is all you need to connect the camera, audio device and external display to the collaboration app on your laptop. Your employees will experience the amazing quality of UltraHD 4K and 1080p30 video – with a remote control that makes it super easy to Pan, Tilt and Zoom! And they will also enjoy crystal-clear audio every time!

Available for purchase separately or bundled together
