Honeywell Announces Release of Android 10 Across Multiple Devices

Android 10 includes over 50 new security and privacy features. These features are only available with Android 10, not through backported security patches to older Android versions. Google and Honeywell recommended security best practice is to maintain the latest OS versions on devices. However, OS downgrading is possible.

Mobility Edge™ is a unique software plus hardware platform, providing unmatched Android version certainty and continuity. Each Android version is guaranteed at least through Android 12, plus commitment to deliver Android 13 pending feasibility.

REGIONS AFFECTED

- | | |
|--|--|
| <input checked="" type="checkbox"/> Asia Pacific (APAC) | <input checked="" type="checkbox"/> Middle East, Turkey, Africa (META) |
| <input checked="" type="checkbox"/> Europe (EU) | <input checked="" type="checkbox"/> Latin America (LATAM) |
| <input checked="" type="checkbox"/> Greater China (GrCH) | <input checked="" type="checkbox"/> North America (NA) |
