

## KAPTIVO ROOMS

# Bring the creativity and flexibility of whiteboarding into Cisco Webex meetings

Designed for a seamless collaboration experience in meeting rooms of all sizes, Kaptivo Rooms supports native integration with Cisco video conferencing systems enabling you to easily screen share your content in Webex video meetings and promote more effective collaboration.

## REMOTE COLLABORATION MADE EASY

Digitize and share existing regular whiteboards in any video meeting

Install Kaptivo's digital whiteboard camera above your existing whiteboard to stream images without glare, smudges, or people blocking the board

No apps, plugins, logins, or special pens required – in a meeting, simply select the Kaptivo input on your Cisco room codec or TelePresence video device

Native integration with Cisco Touch 10 controller
